While assistance to foreign police and security services meeting these two criteria does not contravene the law, we must be sensitive to the intent of Congress with respect to assistance in law enforcement. Programs meeting organization objectives but with substantial involvement in assistance to law enforcement, other than narcotics control and combat operations against insurgents or foreign invasion, should be reported to Headquarters in sufficient detail to permit briefing of our Congressional oversight committees should Headquarters deem this prudent. The Ambassador should be made aware of ongoing and contemplated programs which provide advisory, training, and/or material assistance to police or security services.

4. AID's International Police Academy (IPA) in Washington will become AID's primary means of training foreign police officials.

6. The information provided herein should assist Stations in evaluating liaison requests for assistance and insure appropriate justification for those internal security programs in which we engage.
